

SIDE-BY-SIDE 100% SYNTHETIC 4-STROKE MOTOR OIL

DESCRIPTION:

Torco's Side-by-Side motor oils are engineered using premium 100% synthetic base oils fortified with Ester for highly stressed engines. The combination of premium 100% synthetic base oils, high-performance additive technology, and shear-stable polymer system provides superior viscosity control and reduces friction, wear, and operating temperatures while providing the highest degree of protection under severe heat and load applications.

FEATURES & BENEFITS:

- 100% synthetic Group III and Group IV base oils maintain viscosity and film strength
- Specifically engineered for high-performance 4-Stroke Side-by-Side engines
- Advanced additive technology provides oxidative stability and protection in extreme load and endurance conditions
- Lowers operating temperature

APPLICATIONS:

Recommended for air and liquid cooled Side-by-Side 4-stroke engines used in extreme heat, RPM, and load applications.

MEETS/EXCEEDS:

Exceeds: JASO-MA2 • API SN/SM/SL/SJ
