

T-4R 100% SYNTHETIC 4T RACING OIL

DESCRIPTION:

T-4R 100% synthetic 4Tracing oil provides positive clutch activation, smoother shifting, and the highest degree of anti-wear protection. The combination of premium synthetic base oils, mPAO, Ester, and Extreme Pressure additive technology is engineered for unmatched protection when used with integrated transmissions. T-4R provides excellent shear stability to maintain oil viscosity and film strength in extreme temperature and load conditions. Torco's race-proven additive technology increases wear protection and lower operating temperatures as it reduces frictional losses between reciprocating-sliding internal engine components.

FEATURES & BENEFITS:

- 100% Group III/IV/V mPAO and Ester synthetic base oils
- Shear stable formula maintains oil viscosity and film strength at any temperature
- Provides smooth, positive clutch activation
- Ester and PAO technology prevents deposit formation in highly loaded race engines
- Primary/secondary zinc package lays down an anti-wear film fast and keeps it there
- Superior anti-wear and deposit free performance

APPLICATIONS:

Recommended for use in air or liquid-cooled 4-cycle high-performance race engines with integrated transmissions.

MEETS/EXCEEDS:

Exceeds: API SL and JASO MA2

TYPICAL TEST DATA:

TEST	METHOD	10W-40	20W-50
Specific Gravity @ 15.5 °C	D1298	0.8574	0.8590
Lbs/Gal	D1298	7.148	7.163
Viscosity @ 40 °C (cSt)	D445	105	138
Viscosity @ 100 °C (cSt)	D445	16.01	19.12
Viscosity Index	D2270	163	158
Pour Point °C	D97	-36	-36
Flash Point °C	D92	207	218
