ZEP HIGH PERFORMANCE ZINC ENHANCED ENGINE PROTECTOR

>>Description

Torco ZEP contains MPZ®, a perfect balance of zinc, phosphorus and moly. The friction fighting chemistry of MPZ® adds wear protection back into motor oils that have “zinc”, the anti-wear chemical, purposely removed. ZEP won’t rub off, wear off, scrap off or scuff off. For this reason, it is excellent for high-performance engines, especially those with flat tappet cams. ZEP coats all engine parts and protects them from “dry starts,” a leading cause of engine damage in vehicles kept in storage and driven infrequently.

>>Typical Applications

Treats 6 quarts or 6 liters of oil. Mixes with all synthetic- and petroleum-based oils. Recommended for Hot Rods, Muscle Cars, Sports Cars, Exotics, Classics, Collector Cars, Low-Mileage and all Stored Vehicles.

>>Chemical Targets

Zinc, ppm 8975
Phosphorous, ppm ... 7426
Molybdenum, ppm ... 226

>>Physical Properties

Specific Gravity @ 60°F 0.9718
Viscosity, cSt @ 100°C 12.35
Flash Point, °C 156
Color, D-1500 Green
0.9718 12.35 156 Green

>>Package Sizes / P/N

12-oz. A010033LE
24/12-oz. Case A010033L
